APITAL d.o.o. is a Croatian manufacturing company specializing in the **design and production of stainless-steel machinery and complete industrial solutions**.

Our Production Program

We manufacture a wide range of machinery, including:

- Food processing machinery, with a strong focus on fruit processing
- Packaging and filling machines for various types of products
- Beekeeping machinery and custom constructions
- Auxiliary and custom-made equipment

Complete Processing & Packaging Solutions

In addition to individual machines, we deliver fully integrated production lines, such as:

- Juice production lines
- Filling lines for juice, honey, and jams
- Honey extraction lines
- Automatic beeswax foundation machines

Our diverse product portfolio enables us to equip complete production facilities, from small-scale operations to industrial plants.

Engineering Expertise & Quality

Our manufacturing process is supported by a multidisciplinary team of mechanical, electrical, and IT engineers, ensuring seamless integration, technical excellence, and the ability to deliver even the most complex and demanding systems.

Our commitment to high quality, reliability, and sustainable manufacturing is confirmed by our ISO 9001 and ISO 14001 certifications.

Why choose APITAL?

- High performance. Sensible cost.
- Big enough to build complex machines. Small enough to listen and adapt.
- Designed for fast cleaning and easy maintenance.
- Simplicity is reliability. Fewer parts mean fewer problems.
- Designed to minimize footprint — because production space is a valuable resource.

EasyPass 1500 - Small destoning & pulping machine

- is made from high quality stainless steel which ensures long lifespan, hygienic processing and simple maintenance. Designed for efficient processing of fruit and vegetables with capacity of 1000 kg per hour makes it ideal for commercial and industrial use. The machine efficiently separates redundant produce parts (seeds and fibers) while smooth, homogeneous mixture is produced. Such mixture is ready for further use in preparation of juice, jams, puree or other food products.

- Robust stainless-steel construction with laser-welded joints – engineered for long-term operation, high mechanical strength, and easy sanitary cleaning.

- Industrial motor and drive system ensure reliable and stable continuous operation, even under higher loads.

- Simple and intuitive operation with minimal adjustment allows for fast training and safe use.

- The construction and surface finishing are designed to meet food industry requirements, with a strong focus on hygiene and easy maintenance.

- Direct manufacturer support and service throughout the operational lifetime of the machine.

Technical description:

- Product processing capacity: 200 – 500 kg/h
- Dimensions: 85 x 50 x 120 cm
- Stainless steel (AISI 304) wheeled construction
- Power supply: 400 V
- Electric motor power: 1,5 kW
- Smaller perforations are possible with additional payment

Utility requirements:

- Electrical supply: CEE industrial socket, 16 A, 3-phase or Schuko socket 230 V single-phase

Optional / Spare parts:

1081500	Sieve fi 2-12 mm	**PureMesh (2-12)**	Per request
10815005	Sieve fi 0,5 mm	**PureMesh 0.5**	Per request
1081501	Sieve fi 1 mm	**PureMesh 1.0**	Per request
1081510	Sieve laser made holes	**PureMash Profile**	Per request
6120001	PTFE spatulas 5 mm (set of 3)		Per request
6120002	Silicone Spatulas 10 mm (Set of 3) Recommended for plumbs		Per request
	Additional charge for single-phase 2,2 kW motor		Per request

Delivery Terms: Ex works (pickup at our facility in Vrbovec) or delivery by agreement

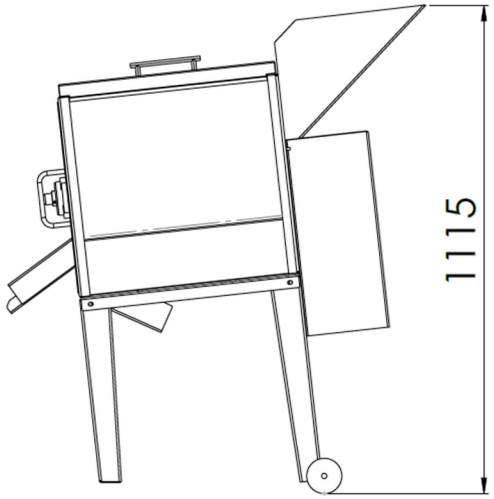

Typical lead time: 4 – 6 weeks from order confirmation

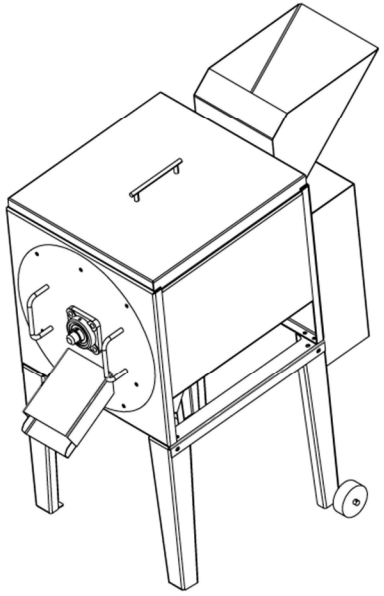

Payment Terms: 50% in advance, remaining amount before delivery

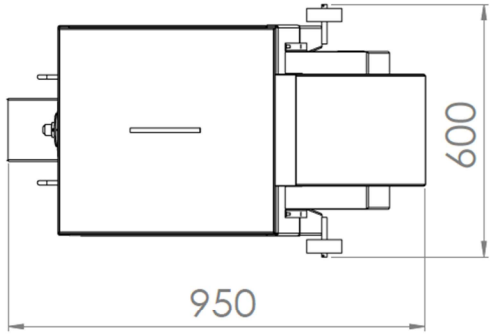

Warranty period: 2 years

Made in the European Union – Croatia, City of Vrbovec
