APITAL d.o.o. is a Croatian manufacturing company specializing in the **design and production of stainless-steel machinery and complete industrial solutions**.

Our Production Program

We manufacture a wide range of machinery, including:

- Food processing machinery, with a strong focus on fruit processing
- Packaging and filling machines for various types of products
- Beekeeping machinery and custom constructions
- Auxiliary and custom-made equipment

Complete Processing & Packaging Solutions

In addition to individual machines, we deliver fully integrated production lines, such as:

- Juice production lines
- Filling lines for juice, honey, and jams
- Honey extraction lines
- Automatic beeswax foundation machines

Our diverse product portfolio enables us to equip complete production facilities, from small-scale operations to industrial plants.

Engineering Expertise & Quality

Our manufacturing process is supported by a multidisciplinary team of mechanical, electrical, and IT engineers, ensuring seamless integration, technical excellence, and the ability to deliver even the most complex and demanding systems.

Our commitment to high quality, reliability, and sustainable manufacturing is confirmed by our ISO 9001 and ISO 14001 certifications.

Why choose APITAL?

- High performance. Sensible cost.
- Big enough to build complex machines. Small enough to listen and adapt.
- Designed for fast cleaning and easy maintenance.
- Simplicity is reliability. Fewer parts mean fewer problems.
- Designed to minimize footprint — because production space is a valuable resource.

BoxLift - Bin tipper

Bin tipper is a machine designed for efficient lifting of box pallets with fruits & vegetables. Long working hours are provided by robust stainless steel and carbon steel construction. Trough designed for placement of box pallets provides simple and safe load placing. Hydraulic cylinders adjusted for high load offer precise lifting and dumping of box pallets with fruits & vegetables. This dumper is an ideal solution for raising efficiency in fruit industry and similar branches.

*Can be used as a standalone unit or integrated into a production line, depending on user requirements.

- A robust steel frame with high-quality welded joints ensures high structural strength and long-term reliability.
- The lifting basket made of stainless steel provides safe and hygienic contact with fruit and vegetables.
- A powerful and reliable hydraulic system enables controlled lifting and unloading of larger product quantities with special safety features.
- Simple operation and high-quality surface finishing are designed for intensive daily use.
- High quality and premium materials reduce maintenance costs and extend the machine's service life.

Technical description:

- Dimensions: 1445 x 1630 x 1910 mm
- Weight: 265 kg
- Material: frame material - iron, box material - stainless steel
- Voltage: 400 V
- Drive: hydraulic
- Motor's power: 1,5 kW

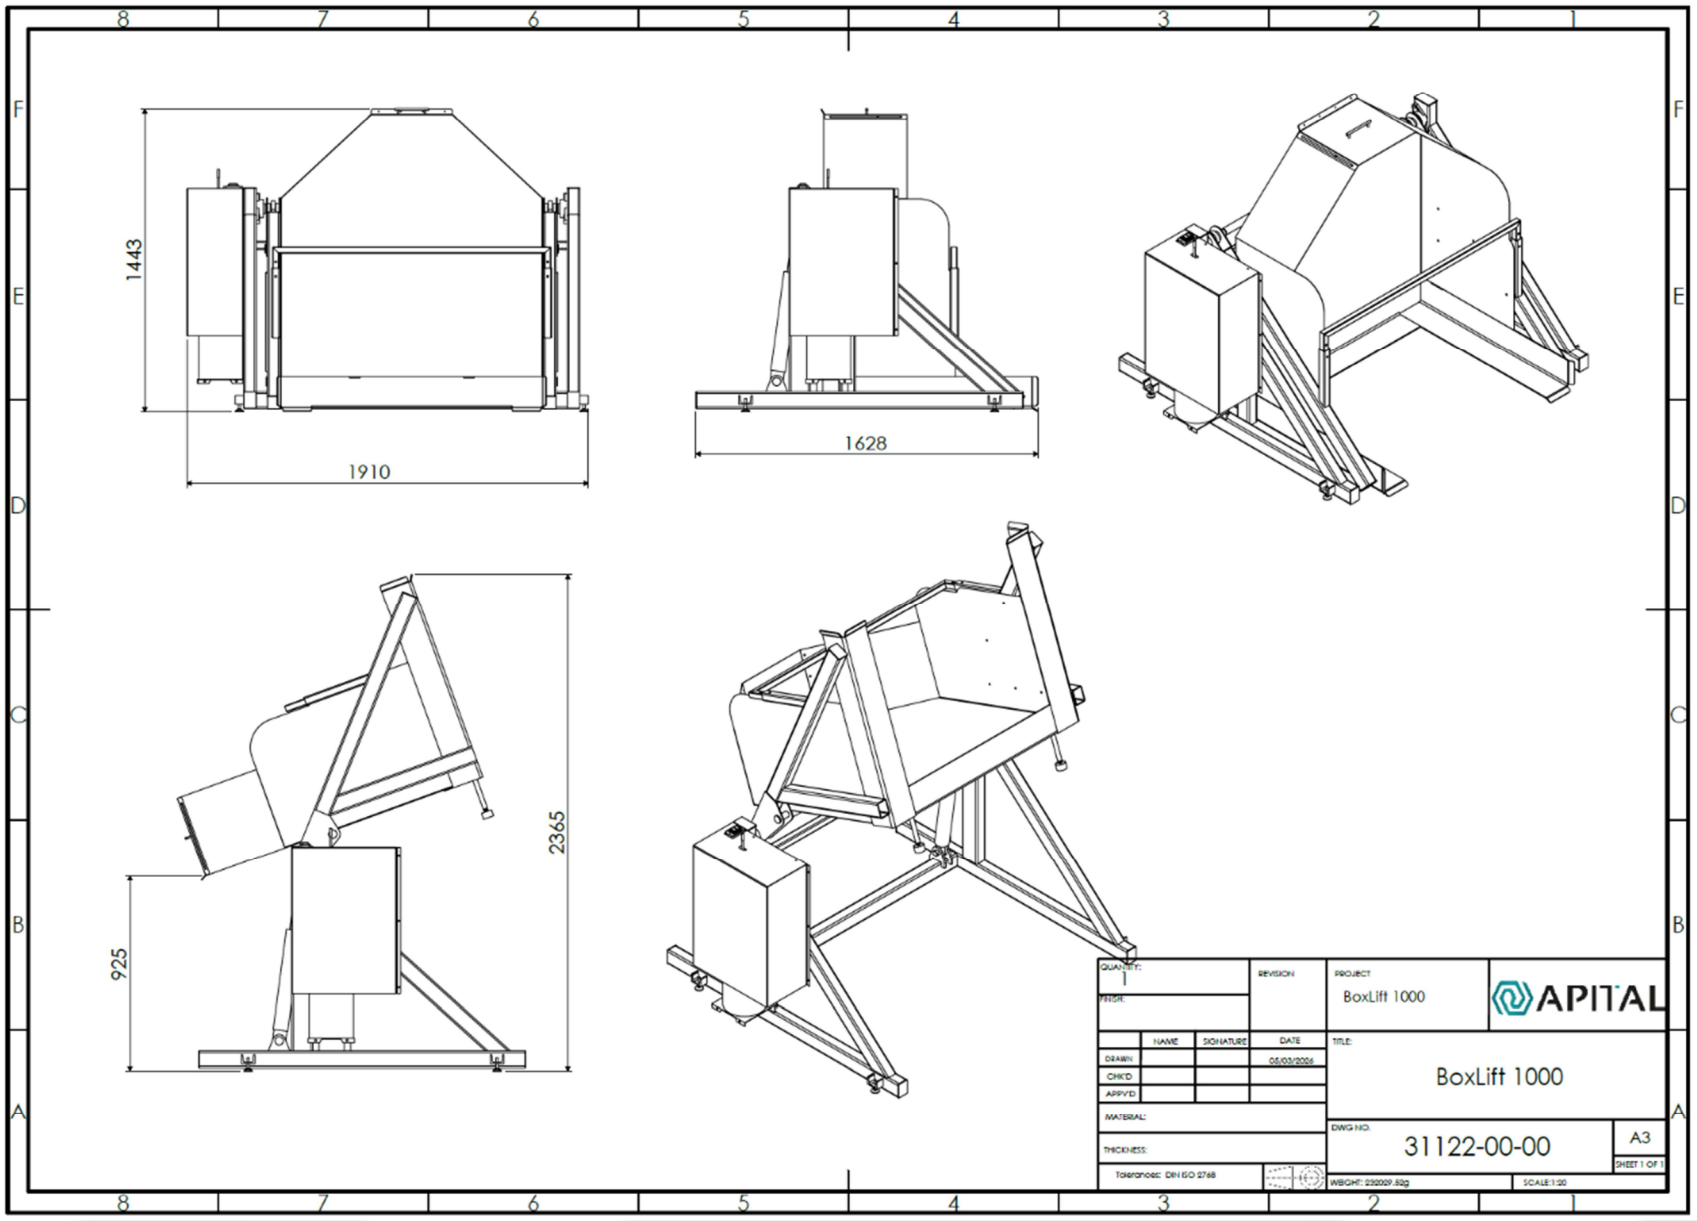

Utility requirements:

- Electrical supply: CEE industrial socket, 16 A, 3-phase

Delivery Terms: Ex works (pickup at our facility in Vrbovec) or delivery by agreement
Typical lead time: 6 – 8 weeks from order confirmation
Payment Terms: 50% in advance, remaining amount before delivery
Warranty period: 2 years

Made in the European Union – Croatia, City of Vrbovec
