APITAL d.o.o. is a Croatian manufacturing company specializing in the **design and production of stainless-steel machinery and complete industrial solutions**.

Our Production Program

We manufacture a wide range of machinery, including:

- Food processing machinery, with a strong focus on fruit processing
- Packaging and filling machines for various types of products
- Beekeeping machinery and custom constructions
- Auxiliary and custom-made equipment

Complete Processing & Packaging Solutions

In addition to individual machines, we deliver fully integrated production lines, such as:

- Juice production lines
- Filling lines for juice, honey, and jams
- Honey extraction lines
- Automatic beeswax foundation machines

Our diverse product portfolio enables us to equip complete production facilities, from small-scale operations to industrial plants.

Engineering Expertise & Quality

Our manufacturing process is supported by a multidisciplinary team of mechanical, electrical, and IT engineers, ensuring seamless integration, technical excellence, and the ability to deliver even the most complex and demanding systems.

Our commitment to high quality, reliability, and sustainable manufacturing is confirmed by our ISO 9001 and ISO 14001 certifications.

Why choose APITAL?

- High performance. Sensible cost.
- Big enough to build complex machines. Small enough to listen and adapt.
- Designed for fast cleaning and easy maintenance.
- Simplicity is reliability. Fewer parts mean fewer problems.
- Designed to minimize footprint — because production space is a valuable resource.

PowerMill 1500 - Fruit and Vegetable Mill

represents a reliable and powerful solution for efficient processing of various raw materials in the food industry, hospitality sector, or for home producers. It is made of high-quality AISI 304 stainless steel, ensuring durability, corrosion resistance, and a long service life, even under intensive use.

The mill is designed for grinding, pulping, and crushing fruit and vegetables to obtain a homogeneous mass—whether preparing raw material for juices, sauces, purees, mashes, or further processing. This mill combines power, durability, and practicality, making it suitable for both occasional use and everyday professional operation.

- Robust and stable construction ensures long-lasting and reliable performance in professional environments.
- Powerful electric motors enable efficient and uniform processing of various types of fruit and vegetables.
- Stainless steel construction guarantees a high level of hygiene and safety in contact with food.
- Easy cleaning and maintenance make the device practical for everyday use.

Technical description:

- Material: AISI 304 stainless steel
- Connection: three-phase, optionally single-phase
- Motor power: 1.5 kW - 400V
  or 2.2 kW - 230 V
- Capacity: up to 800 kg/h
- Grinding sieve: perforation available on request
- Additional sieves with additional payment

Utility requirements:

- Electrical supply: CEE industrial socket, 16 A, 3-phase or Schuko socket 230 V single-phase

Optional / Spare parts:

	Additional sieve		Per request
	Additional charge for single-phase 2,2 kW motor		Per request

Delivery Terms: Ex works (pickup at our facility in Vrbovec) or delivery by agreement

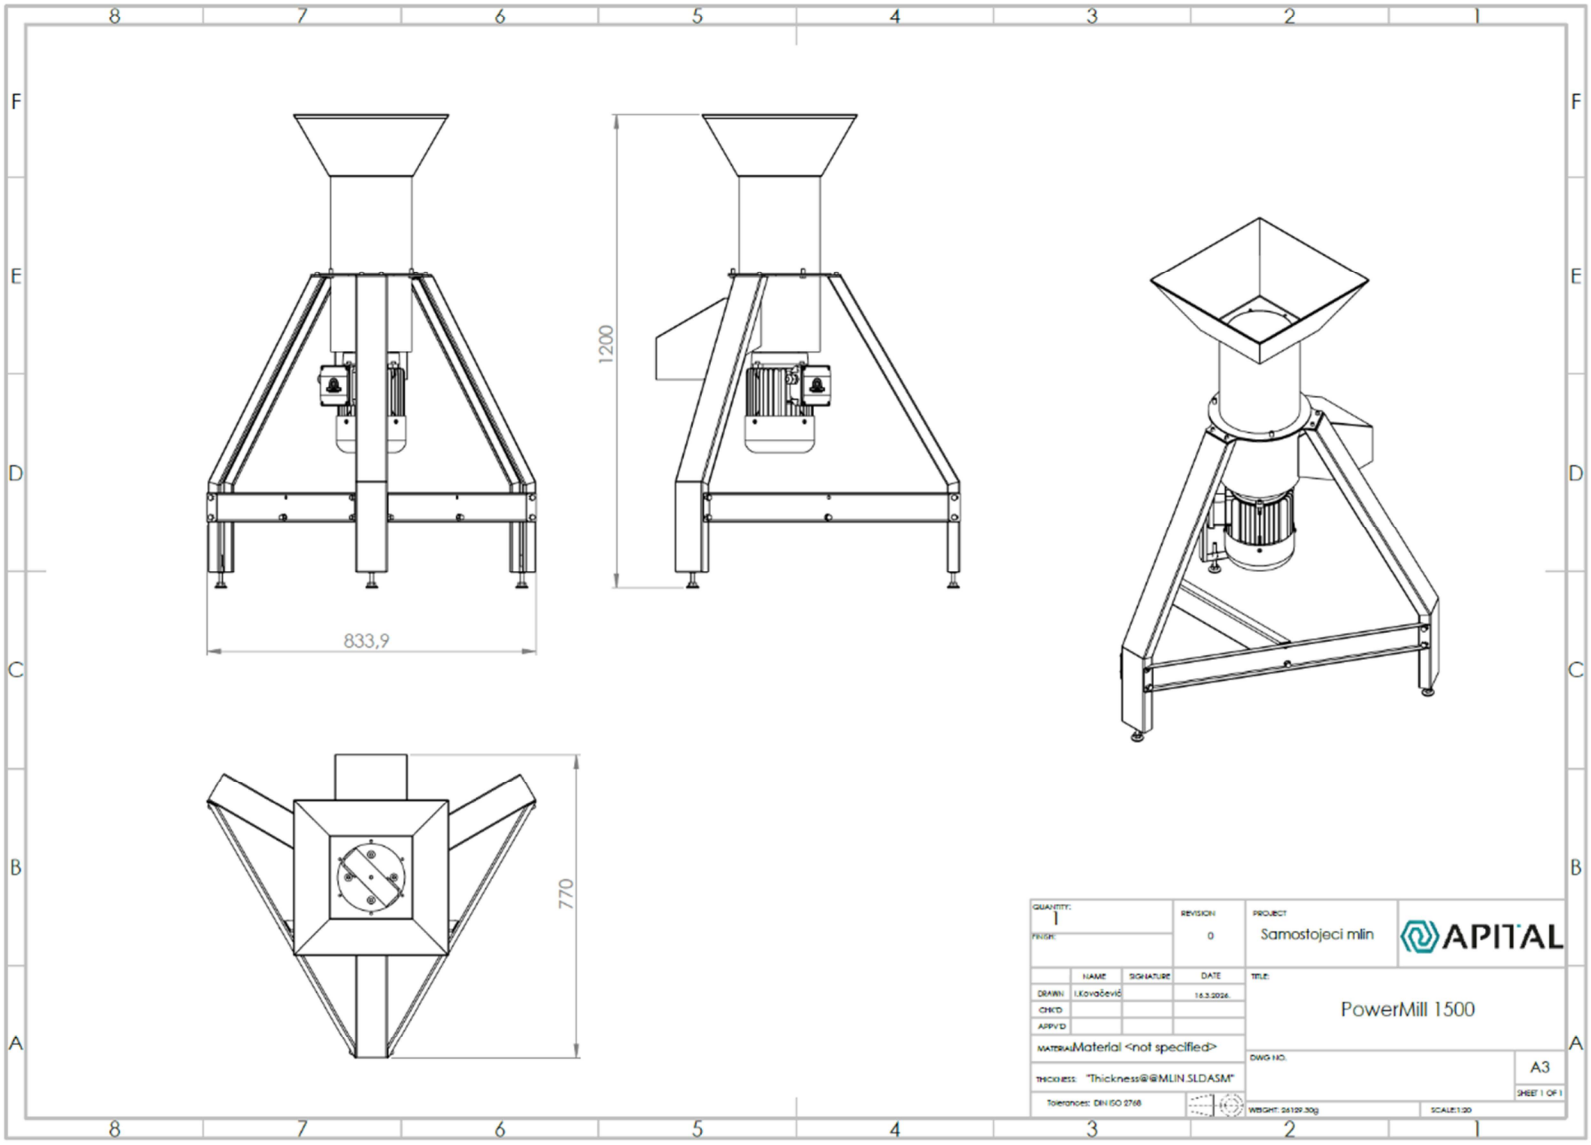

Typical lead time: 6 – 8 weeks from order confirmation

Payment Terms: 50% in advance, remaining amount before delivery

Warranty period: 2 years

Made in the European Union – Croatia, City of Vrbovec
