APITAL d.o.o. is a Croatian manufacturing company specializing in the **design and production of stainless-steel machinery and complete industrial solutions**.

Our Production Program

We manufacture a wide range of machinery, including:

- Food processing machinery, with a strong focus on fruit processing
- Packaging and filling machines for various types of products
- Beekeeping machinery and custom constructions
- Auxiliary and custom-made equipment

Complete Processing & Packaging Solutions

In addition to individual machines, we deliver fully integrated production lines, such as:

- Juice production lines
- Filling lines for juice, honey, and jams
- Honey extraction lines
- Automatic beeswax foundation machines

Our diverse product portfolio enables us to equip complete production facilities, from small-scale operations to industrial plants.

Engineering Expertise & Quality

Our manufacturing process is supported by a multidisciplinary team of mechanical, electrical, and IT engineers, ensuring seamless integration, technical excellence, and the ability to deliver even the most complex and demanding systems.

Our commitment to high quality, reliability, and sustainable manufacturing is confirmed by our ISO 9001 and ISO 14001 certifications.

Why choose APITAL?

- High performance. Sensible cost.
- Big enough to build complex machines. Small enough to listen and adapt.
- Designed for fast cleaning and easy maintenance.
- Simplicity is reliability. Fewer parts mean fewer problems.
- Designed to minimize footprint — because production space is a valuable resource.

ProWash 200B - Elevator with Bubble Washing

The fruit and vegetable washing machine is an efficient solution for cleaning fresh produce in the food industry. It is designed for washing various types of fruits and vegetables and can be easily adapted to different raw materials and working conditions. The air bubble system enables gentle yet thorough removal of impurities without damaging the product. An integrated conveyor and rinsing system ensure continuous and reliable operation within the production line. Its compact and mobile design makes daily use and maintenance simple.

Thanks to its design, it enables efficient separation of heavy and light impurities, achieving a high level of product cleanliness. It is an ideal choice for producers looking for a reliable, flexible, and long-lasting solution for preparing raw materials for further processing.

- Robust stainless steel construction ensures long service life and reliable operation in demanding conditions.
- Manufactured using laser welding, ensuring high precision, strong joints, and premium finishing.

- Optimized design allows for quick and easy maintenance, reducing production downtime.
- Industrial-grade design adapted for continuous operation and high capacities.
- Hygienic design with smooth surfaces enables fast and efficient cleaning.

Technical description:

- Material: Stainless steel AISI 304
- Mobile
- Variable-frequency drive provides conveyor speed control
- Nozzles for final rinsing on conveyor
- Air blower motor: 0.85 kW

Utility requirements:

- Electrical supply: CEE industrial socket, 16 A, 3-phase
- Water connection
- Drainage system

Delivery Terms: Ex works (pickup at our facility in Vrbovec) or delivery by agreement

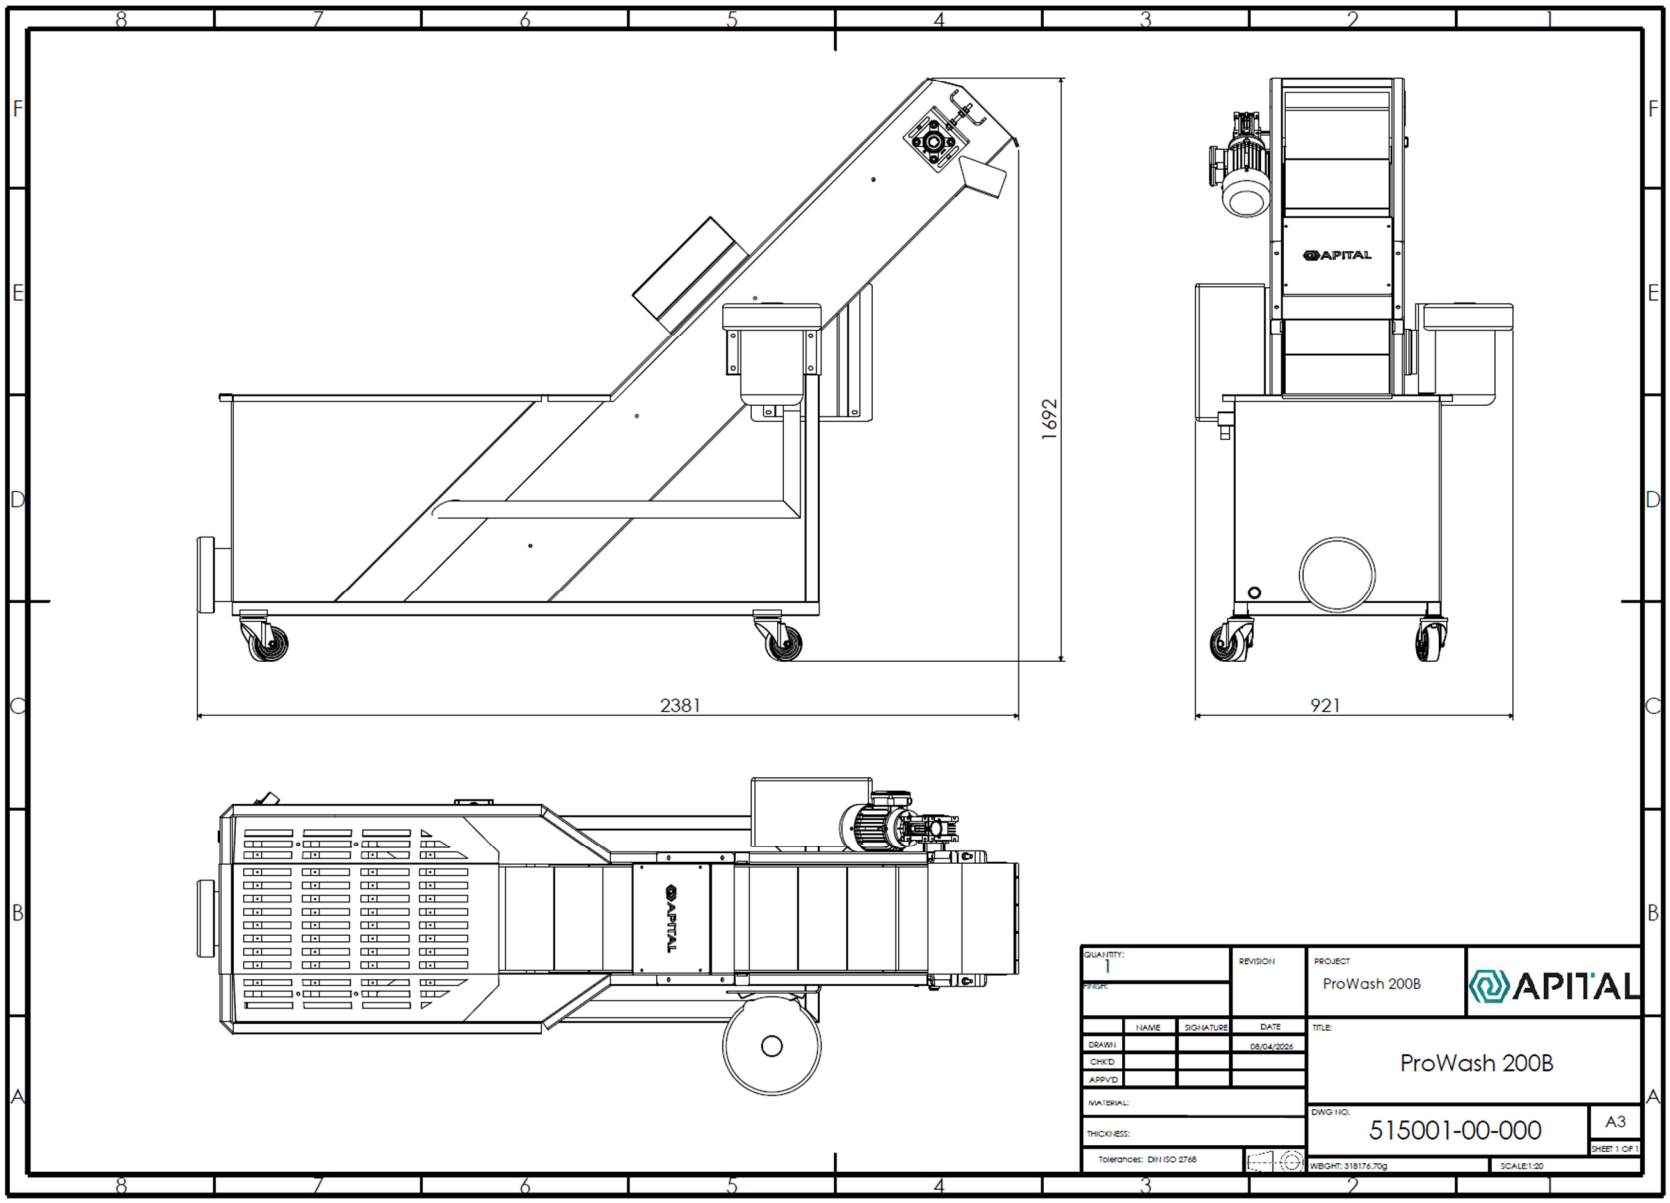

Typical lead time: 6 – 8 weeks from order confirmation

Payment Terms: 30% in advance, remaining amount before delivery

Warranty period: 2 years

Made in the European Union – Croatia, City of Vrbovec
